

# CyberSimple™

Where real financial protection  
makes security choices easy

Cyber Assurance Group Incorporated

# Why CyberSimple™?

## \$1,500,000 of Financial Protection

Comprehensive financial protection from many of the most common cyber risks.

## Peace of Mind

Easy. Affordable. Skip the "Tech Tangle" and focus on the end-game: financial peace of mind.

## Plays Nicely with Others

Both the Financial Protection and Security complement any existing solutions that may already be in use.

## 24/7 Managed Solution for SMEs

A Big Company cloud-native, remotely managed, AI-enabled cybersecurity solution, working for you around the clock.

# Financial Protection Up to \$1,500,000

## Wide Coverage

Protection against ransom, business interruption, data loss, and third-party liability; no deductible

## Hassle-Free Process

No messy underwriting, no applications

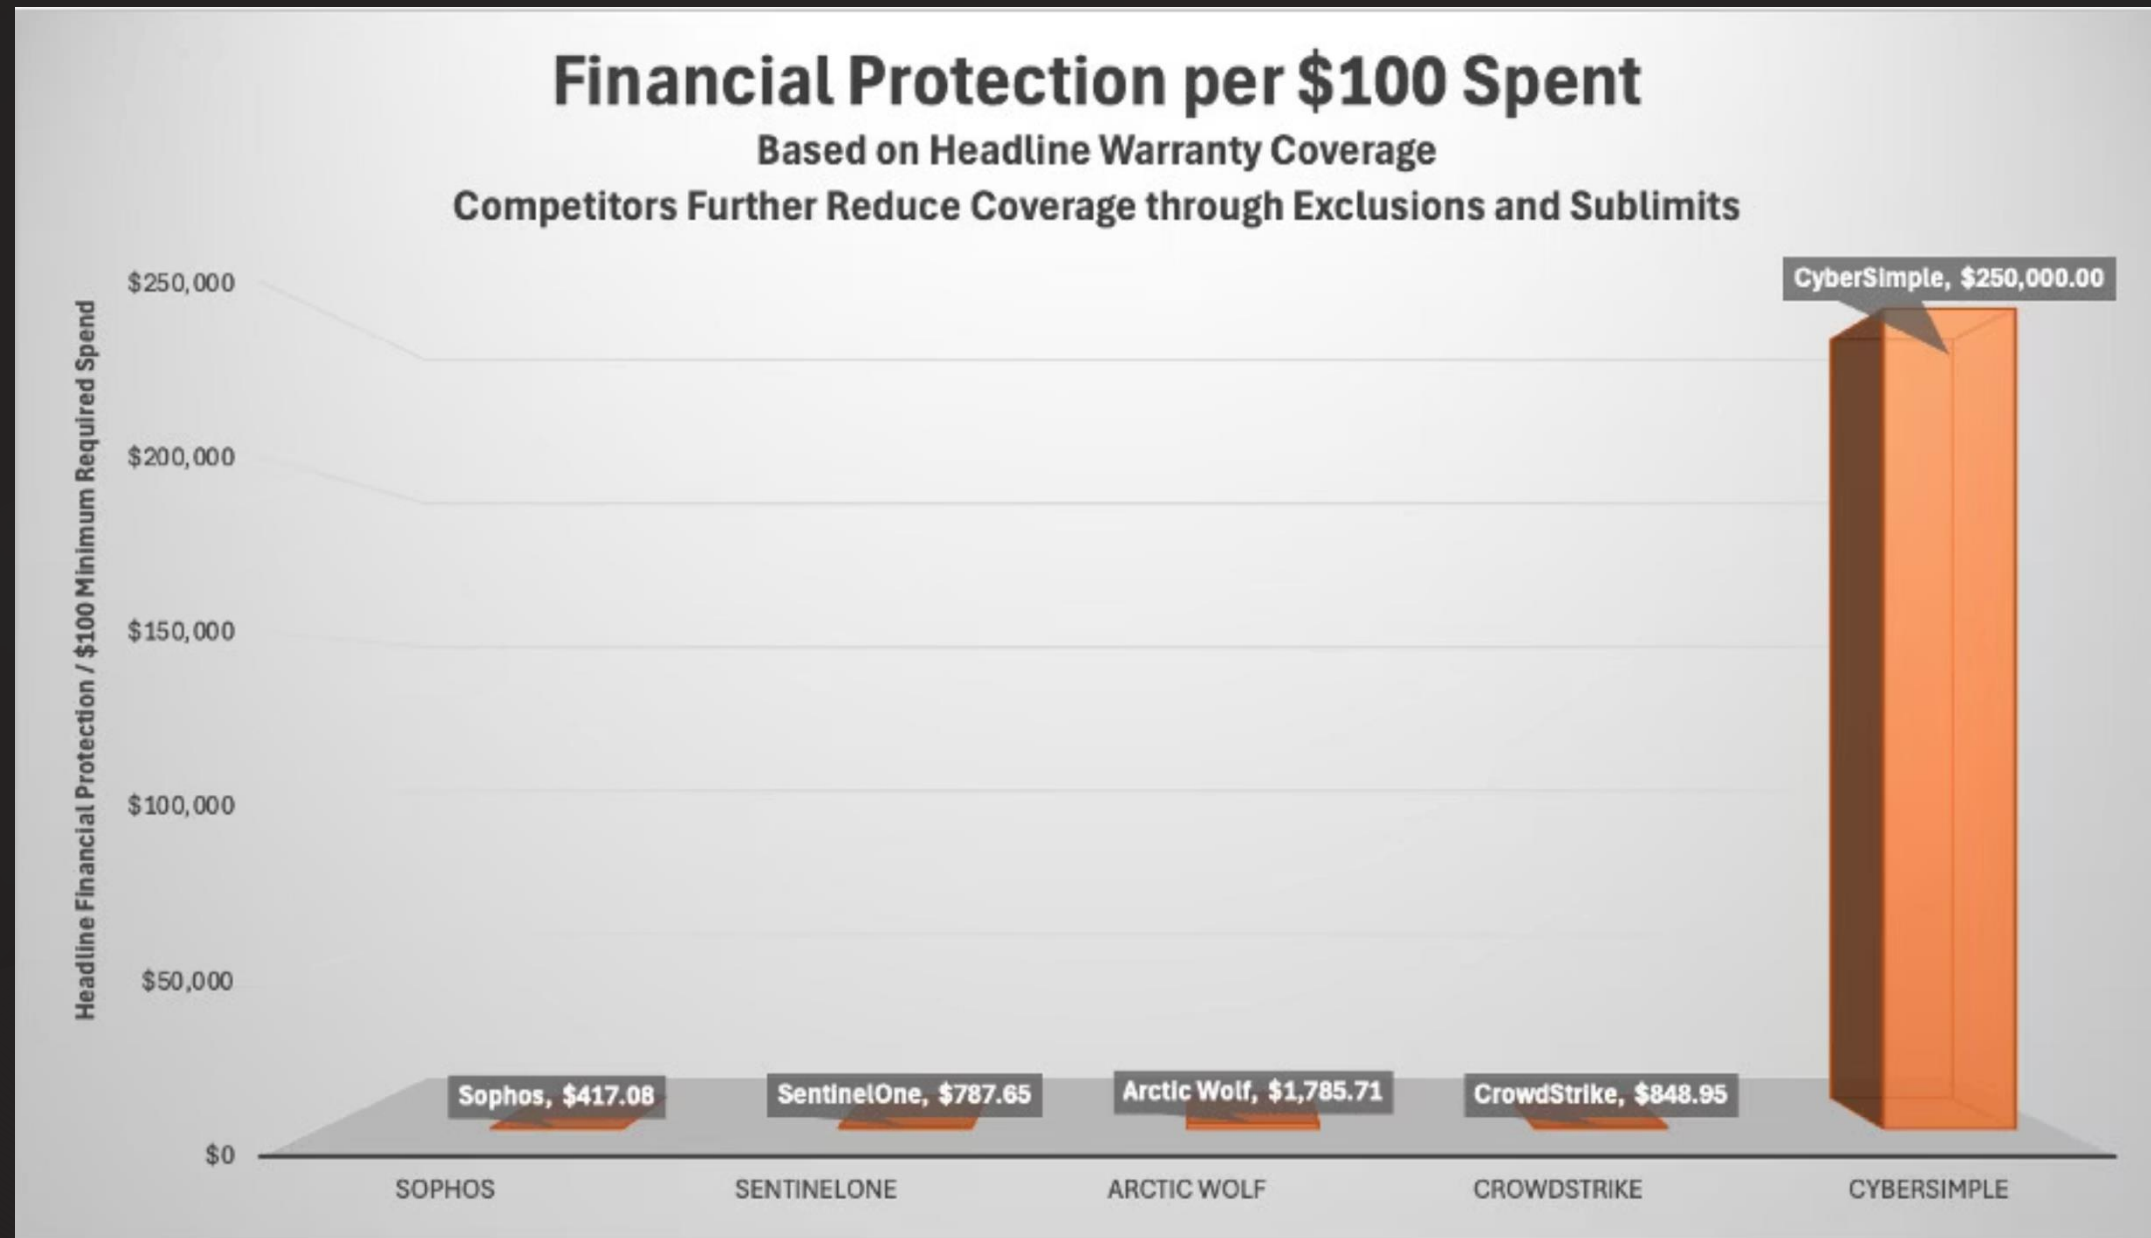

## Trusted Backing

Warranty is made possible in part by specialized risk capital support sourced through regulated partnerships

Subject to terms of Warranty; see Software Subscription & Services Agreement for details

# CyberSimple™ Delivers Unbeatable Value

Maximum Financial Protection per \$100 of each offering's minimum spend requirements

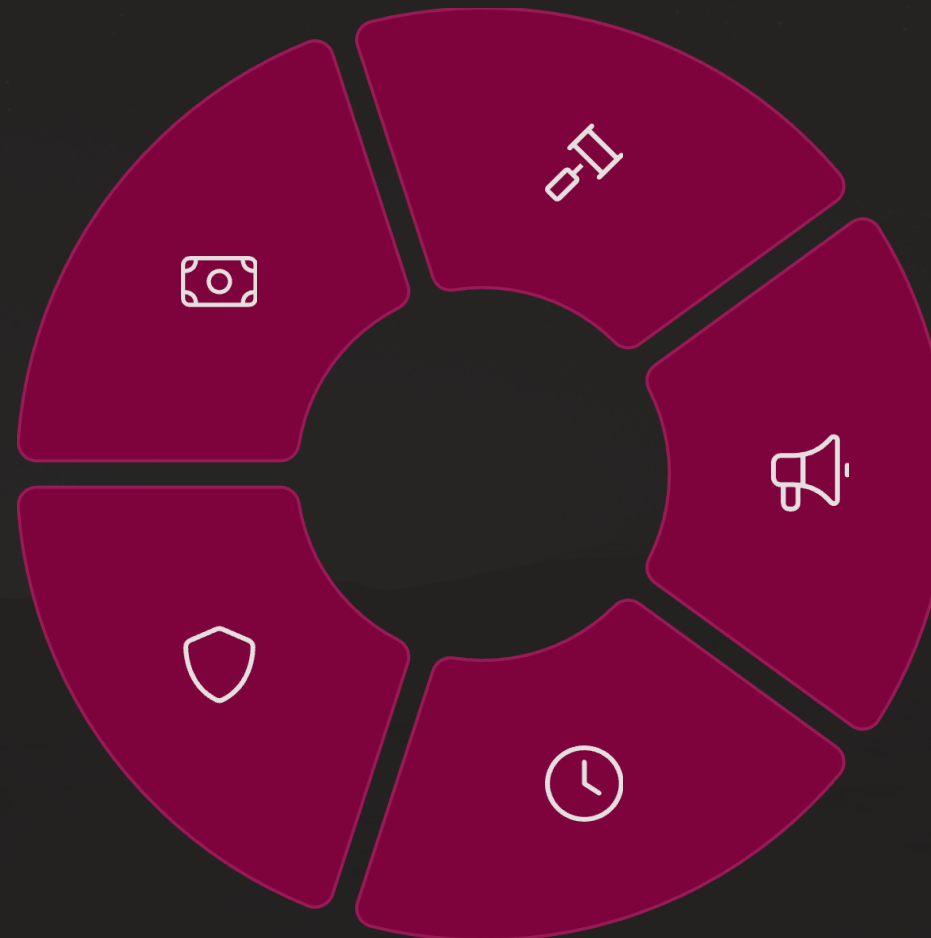

# The CyberSimple™ Warranty Covers:

## Ransom

Coverage for ransomware payment demands

## Third-party Liability

Protection against legal claims

## Forensics & Legal

Expert investigation and legal counsel

## PR & Notification

Professional communication management

## Business Interruption

Coverage for downtime losses

Subject to terms of Warranty; see Software Subscription & Services Agreement for details

# State-of-the-Art Security

## Next-gen signature analysis

Advanced behavior tracking and machine learning (ML) technology

1

2

## Federal-grade security

Same threat intelligence trusted by federal agencies

3

## Zero-day protection

Detects and quarantines unknown threats before they can cause damage

# 24/7/365 AI-Enabled Monitoring

## Always-on defense

Continuous protection for workstations, laptops, and servers, ensuring world-class security at all times

## Real-time alerts, Instant quarantining

Immediate threat notifications and instant quarantining of suspicious processes

## Automated reporting

Periodic, auto-generated reports to help track devices and maintain regulatory compliance

# Easy and Affordable

## Simple Pricing

Subscription-style pricing with no hidden fees

## Embedded Financial Protection

Coverage is simply embedded into your service

## U.S.-based Support

Claims center for quick, straightforward help

# One-Stop Security & Coverage

- Automatic detection and quarantine of rogue processes
- Regular status updates and consultative support
- Minimal disruption, maximum protection

# How CyberSimple™ Works

## Installation

We send you an install link for CHECKLIGHT®, our cybersecurity technology partner; you install the lightweight software agent on those devices you want protected

## Continuous Monitoring

The CHECKLIGHT® cloud platform continuously monitors for anomalies

## Threat Isolation

Threats are automatically isolated before they become problems

## Financial Protection

If an incident happens, your \$1,500,000 warranty coverage stands ready

## Support & Claims

Consultative engineers and easy claim process, all in one place

# Why We Partnered with CHECKLIGHT®

Small businesses often face big risks, but lack the resources of large enterprises. We partnered with CHECKLIGHT® to create an all-in-one safety net: a 24/7 government-grade security service plus \$1,500,000 cyber financial protection rolled into one easy and accessible solution. CHECKLIGHT® brings the same technology used to protect federal agencies into your hands. And it has never allowed a breach to go undetected or a threat to go unquarantined. See Warranty for details.

## About Cyber Assurance Group

We're a Greenwich, Connecticut-based cybersecurity insurance innovator with a single vision: help small and medium-sized businesses stay resilient in a world where cyber threats keep evolving. By partnering with industry-leading technology providers and top-tier insurers, we deliver enterprise class defense—packaged and priced for businesses like yours.
